John McCormick
Pell Sherman
Jim Kirkbride
Wayne Scholz
David Webber

January meeting was canceled due to snow.

February will see some hand made dovetails being built, held over from last month. See above the beautiful half blind dovetail drawer by John McCormick. Hand made dovetails have their place amidst dovetails made with jigs. With the correct fit, glue may not be needed and old furniture exists testifying to this process.

Comfort birds from
Woodcarving International

Fine Woodworking Magazines

Hans Francke will bring bags with back issues, always with interesting topics.

Woodharp. Need a jingle at your door? From a friend I obtained door harp hardware packages, everything except the soundbox.

For sale at \$ 4; Proceeds will benefit our Arbor Day project.

Example:

Above and below, Jim Malone, Jim Kirkbride and Hans Francke show drawers built for the oak desk, several years ago.

Hand made dovetails were built with dovetail saw and chisel or Dozuki pullsaw and fretsaw. Great practice and great results. Why do the dovetails in the back first?

Joining John McCormick in a demo on the 18th.

Show and Tell.

Always some surprises! What have you been working on?

Ideas

Do you have a tip or a question? Bring these to the meeting.

Project!

What kind of collaborative project should the guild undertake this year. Tune in, bring your ideas.

For sale? Sent information for the newsletter to Hans Francke at hfrancke@verizon.net

Is your work in the gallery? Check our website or connect with Rich Dell, our webmaster.

Preview! Computer aided design and emergency generators to keep your shop running at our March meeting. Bill Rynone, a professional engineer, will talk about these issues, with tips on how to maximize use of your wood.
